

**Exhibit 2**  
In Support of  
Non-Party Meta Platforms, Inc.'s  
Motion for Protective Order

**CIVIL INVESTIGATIVE DEMAND FOR  
DOCUMENTS AND INFORMATION  
ISSUED TO FACEBOOK, INC.**

Unless otherwise indicated or modified by the Department of Justice, each specification of this Demand requires a complete search of the Company. In the Department's experience, modifications to this Demand may reduce the burden of searching for responsive documents and information in a way that is consistent with the Department's needs. The Company is encouraged to propose such modifications, but all modifications must be agreed to in writing by the Department.

**SPECIFICATIONS**

1. Identify each antitrust or competition-related investigation, inquiry, or proceeding by any domestic or foreign regulatory, competition, or antitrust authority involving the Company since January 1, 2010 including, but not limited to, any investigation, inquiry, or proceeding by:
  - a. the European Commission or any member state of the European Union;
  - b. the Canadian Competition Bureau;
  - c. the U.S. Congress;
  - d. the U.S. Federal Trade Commission; or
  - e. any U.S. state attorney general's office.
2. For each investigation, inquiry, or proceeding identified in response to Specification 1, submit the following, and for each item submitted, identify each relevant investigation, inquiry, or proceeding in which the item was previously produced:
  - a. all documents, including, but not limited to, data, white papers, presentations, or other submissions that the Company delivered to, filed with, or made available to the authority;
  - b. all transcripts of testimony by any current or former Company employee, officer, agent, board member, or retained expert;
  - c. all remedies proposed by the Company to the governmental authority, including divestiture offers, behavioral remedies, internal compliance changes, changes to services and products, irrespective of whether the remedy was implemented; and
  - d. all draft or final orders, decisions, or other statements or formal objections (whether public or non-public, final or interim) made by any authority.
3. Identify each antitrust or competition-related lawsuit initiated against the Company since January 1, 2010, including federal, state, local, and foreign lawsuits. For each, provide the initial complaint and the most recent amended complaint.

4. For the lawsuit *Six4Three, LLC v. Facebook, Inc.* (filed in the Superior Court of California, County of San Mateo under case number CIV 533328), submit all documents and all interrogatory responses that the Company provided to the plaintiff(s), and all transcripts of testimony by any current or former Company employee, officer, agent, board member, or retained expert.
5. Provide the name, title, and business address of the Company's custodian of each item submitted in response to Specifications 2a, 2b, 2c, and 4.

## DEFINITIONS

The following definitions apply for the purposes of this Demand:

1. The terms "**the Company**," or "Facebook" mean Facebook, Inc., its domestic and foreign parents, predecessors, divisions, subsidiaries, affiliates, partnerships and joint ventures, and all directors, officers, employees, agents, and representatives of the foregoing. The terms "parent," "subsidiary," "affiliate," and "joint venture" refer to any person in which there is partial (25 percent or more) or total ownership or control between the Company and any other person.
2. The term "**Collaborative Work Environment**" means a platform used to create, edit, review, approve, store, organize, share, and access documents and information by and among authorized users, potentially in diverse locations and with different devices. Even when based on a common technology platform, Collaborative Work Environments are often configured as separate and closed environments, each one of which is open to a select group of users with layered access control rules (reader vs. author vs. editor). Collaborative Work Environments include Microsoft SharePoint sites, eRooms, document management systems (e.g., iManage), intranets, web content management systems (CMS) (e.g., Drupal), wikis, and blogs.
3. The term "**Data Dictionary**" means documentation of the organization and structure of the databases or data sets that is sufficient to allow their reasonable use by the Department, including, for each table of information: (a) the size (number of records and overall volume); (b) a general description; (c) a list of field names; (d) a definition for each field as it is used by the Company, including the meanings of all codes that can appear as field values; (e) the format, including variable type and length, of each field; and (f) the primary key in a given table that defines a unique observation.
4. The term "**documents**" means all written, printed, or electronically stored information ("ESI") of any kind in the possession, custody, or control of the Company, including information stored on social media accounts like Twitter, chats, instant messages, text messages, messaging applications, and documents contained in Collaborative Work Environments and other document databases. "Documents" includes metadata, formulas, and other embedded, hidden, and bibliographic or historical data describing or relating to any document. Unless otherwise specified, "documents" excludes bills of lading, invoices in non-

electronic form, purchase orders, customs declarations, and other similar documents of a purely transactional nature; architectural plans and engineering blueprints; and documents solely relating to environmental, tax, OSHA, or ERISA issues.

5. The term “**identify**” means to state the subject, name, number, date, and jurisdiction of the investigation, inquiry, or proceeding.
6. The term “**person**” includes the Company and means any natural person, corporate entity, partnership, association, joint venture, government entity, or trust.

## INSTRUCTIONS

### *Timing*

1. All references to year refer to calendar year. Unless otherwise specified, this Demand calls for documents, data, and other information created, altered, or received by the Company since January 1, 2010.

### *Production Format*

2. Department representatives must approve the format and production method of any documents, data, or other information before the Company makes an electronic production in response to this Demand. Before preparing its production, the Company must contact the Department to explain what materials are available and how they are stored. This discussion must include Company personnel who are familiar with its electronically stored information and databases/data sets.
3. Before using software or technology (including search terms, predictive coding, de-duplication, or similar technologies) to identify or eliminate documents, data, or information potentially responsive to this Demand, the Company must submit a written description of the method(s) used to conduct any part of its search. In addition, for any process that relies on search terms to identify or eliminate documents, the Company must submit: (a) a list of proposed terms; (b) a tally of all the terms that appear in the collection and the frequency of each term; (c) a list of stop words and operators for the platform being used; and (d) a glossary of industry and company terminology. For any process that instead relies on predictive coding to identify or eliminate documents, you must include (a) confirmation that subject-matter experts will be reviewing the seed set and training rounds; (b) recall, precision, and confidence-level statistics (or an equivalent); and (c) a validation process that allows for Department review of statistically-significant samples of documents categorized as non-responsive documents by the algorithm.
4. If the Department agrees to narrow the scope of this Demand to a limited group of custodians, a search of each custodian’s files must include files of their predecessors; files maintained by their assistants or under their control; and common or shared

databases or data sources maintained by the Company that are accessible by each custodian, their predecessors, or assistants.

5. Submit responses to this Demand in a reasonably usable format as required by the Department in the letter sent in connection with this Civil Investigative Demand. Documents must be complete and unredacted, except for privilege. Documents must be submitted as found and ordered in the Company's files and must not be shuffled or otherwise rearranged. The Company is encouraged to submit copies of hard-copy documents electronically (with color hard copies where necessary to interpret the document) in lieu of producing original hard-copy documents. Absent a Department request, produce electronic documents in electronic form only. Electronic productions must be free of viruses. The Department will return any infected media for replacement, which may delay the Company's date of compliance with this Demand.
6. Do not produce any Sensitive Personally Identifiable Information ("Sensitive PII") or Sensitive Health Information ("SHI") before discussing the information with the Department representatives. If any document responsive to a particular request contains Sensitive PII or SHI that is not responsive to that request, redact the unresponsive Sensitive PII or SHI before producing the document. To avoid any confusion about the reason for the redaction, produce a list of such redacted documents by document control number.

Sensitive PII includes a person's Social Security Number; or a person's name, address, or phone number in combination with one or more of their: (a) date of birth; (b) driver's license number or other state identification number, or a foreign country equivalent; (c) passport number; (d) financial account number; or (e) credit or debit card number.

Sensitive Health Information includes medical records and other individually identifiable health information, whether on paper, in electronic form, or communicated orally. SHI relates to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present, or future payment for the provision of health care to an individual.

7. Provide any index of documents prepared by any person in connection with your response to this Demand. If the index is available in electronic form, provide it in that form.
8. Data called for by this Demand must be submitted electronically in a reasonably useable compilation that will allow the Department to access the information it contains. Producing a database or data set in its entirety often does not satisfy this requirement. For the Department to be able to access and interpret data, the Company must provide, for each database, a description of each database or data set to be produced, including: (1) its software platform; (2) its type (e.g., flat, relational, or enterprise); (3) the sources (e.g., other databases or individuals) used to populate the database; (4) for relational or enterprise databases, documents specifying the relationships among tables (e.g., an entity

relationship diagram); (5) any query forms; (6) any regularly prepared reports produced from that database; and (7) a Data Dictionary that includes, for each table in the database:

- a. the name of the table;
- b. a general description of the information contained;
- c. the size in both number of records and megabytes;
- d. a list of fields;
- e. the format, including variable type and length, of each field;
- f. a definition for each field as it is used by the Company, including the meanings of all codes that can appear as field values;
- g. the fields that are primary keys for the purpose of identifying a unique observation;
- h. the fields that are foreign keys for the purpose of joining tables; and
- i. an indication of which fields are populated.

It is likely that only a subset or compilation of the contents of any particular database or data set will need to be produced. After providing the information above, counsel and knowledgeable personnel from the Company should discuss with Department representatives what constitutes a sufficient production from the database or data set in a reasonably useable format.

9. The Company must continue to preserve documents or data contained in disaster recovery systems or back-up media that may contain information responsive to this Demand. Please contact the Division's representative to discuss your obligation to preserve back up media.
10. Produce all non-privileged portions of any responsive document (including non-privileged or redacted attachments) for which a privilege claim is asserted. Each document withheld in whole or in part from production based on a claim of privilege must be assigned a unique privilege identification number and separate fields representing the beginning and ending document control numbers and logged as follows:
  - a. Each log entry must contain, in separate fields: privilege identification number; beginning and ending document control numbers; parent document control numbers; attachments document control numbers; family range; number of pages; all authors; all addressees; all blind copy recipients; all other recipients; date of the document; an indication of whether it is redacted; the basis for the privilege claim (e.g., attorney-client privilege), including the anticipated litigation for any work-product claim and the underlying privilege claim if subject to a joint-

defense or common-interest agreement; and a description of the document's subject matter sufficiently detailed to enable the Department to assess the privilege claim and the facts relied upon to support that claim.

- b. Include a separate legend containing an alphabetical list (by last name) of each name on the privilege log, identifying titles, company affiliations, the members of any group or email list on the log (e.g., the Board of Directors) and any name variations used for the same individual.
  - c. On the log and the legend, list all attorneys acting in a legal capacity with the designation ESQ after their name (include a space before and after the "ESQ").
  - d. Produce the log and legend in electronic form that is both searchable and sortable. Upon request, the Company must submit a hard copy of the log and legend.
  - e. Department representatives will provide an exemplar and template for the log and legend upon request.
  - f. Any document created by the Company's in-house counsel or the Company's outside counsel that has not been distributed outside the Company's in-house counsel's office or the Company's outside counsel's law firm does not have to be logged. But if the document was distributed to any attorney who does not work exclusively in the Company's in-house counsel's office or who has any business responsibilities, it must be logged. Unlogged documents are subject to any preservation obligations the Company or counsel may have.
11. If the Company is unable to answer a question fully, it must supply all available information; explain why such answer is incomplete; describe the efforts made by the Company to obtain the information; and list the sources from which the complete answer may be obtained. If the information that allows for accurate answers is not available, submit best estimates and describe how the estimates were derived. Estimated data should be followed by the notation "est." If there is no reasonable way for the Company to estimate, provide an explanation.
  12. If documents, data, or other information responsive to a particular request no longer exists for reasons other than the Company's document retention policy, describe the circumstances under which it was lost or destroyed, describe the information lost, list the specifications to which it was responsive, and list persons with knowledge of such documents, data, or other information.
  13. To complete this Demand, the Company must submit the certification on the reverse of the Civil Investigative Demand form, executed by the official supervising compliance with this Demand, and notarized.

Direct any questions the Company has relating to the scope or meaning of anything in this Demand or suggestions for possible modifications thereto to Howard Parker at 415-229-2932.

The response to this Demand must be addressed to the attention of Howard Parker and delivered between 8:30 a.m. and 5:00 p.m. on any business day to Antitrust Division, U.S. Dept. of Justice, Room 10-0101, 450 Golden Gate Ave., San Francisco, CA 94102.
